## Paint Express: Structure additive coarse EL 460-0029

---

Adding Structure additive EL 460-0029 to UNA-COLOR DB 4524x(gloss level)-(colour tone), UNA-THIX-COLOR DB 4520x(gloss level)-(colour tone) and FANTASTIC-COLOR DB 4888x(gloss level)-(colour tone) results in a coarse pearl texture effect.

This produces highly textured surfaces, which should as far as possible be given a top coat using a clear or for instance a metallic coating. The result is visually appealing effects that are particularly scratch and scuff resistant.
